- ★ **Existing Vanity top removal is a \$100 fee.**
  - COLOSSUS does NOT dispose tops
  - Uninstall existing tops - Cut Tops to 48" lengths - Customer to turn water valves off
  
- ★ SEAMS are determined based on numerous variables.
  - Size of slab -Material -Job site conditions
  - Although you are invited to view material as to how it is going to be cut, COLOSSUS does retain the right to decide final layout and seam placement
  
- ★ BE TEMPLATE READY.
  - Cabinet(s) installed and plum/level - Work area clear - Electricity
  - Sink(s) and faucet on-site
  - If you have existing tops, please clear them off prior to our arrival.
  - Be aware of existing countertop deficit, floors, supports, walls and discuss solutions
  - Tub Deck, thresholds, wall caps, shower accessories need to be built and have PITCH already implemented.
  - COLOSSUS DOES NOT IMPLEMENT PITCH DURING INSTALLATION!
  - Undermount tub deck needs to have tub installed with top flange of tub level with surrounding structure
  - Drop-in Tub decks need to have structure completely built with tub NOT installed.
  - Sinks will be centered in sink base cabinet unless otherwise instructed to do so.
  
- ★ BE INSTALLATION READY.
  - Parking for 1 COLOSSUS truck
  - Area surrounding Colossus truck needs to be clear since it will be used as a work station where field cuts are made.
  - Walkway and work area clear
  - Cabinets can not have been adjusted in any way since making the template (ex: sheetrock, panels, molding, etc.)
  - Sink base cabinet cleared of any debris
  - Faucet on-site at installation. Faucet placement \_\_\_\_\_
  
- ★ **Colossus is not responsible for bowed or bellied walls pertaining to backsplashes**
- ★ Natural stone is prone to certain characteristics such as pits, fissures, veining, etc. Inspect any stone you choose to be aware of it's color as well as finish.
